

Purpose of Transport Facility: Safety of the students is the prime concern for the College. The College provides the facility of transportation keeping in mind the convenience of students. Major points are covered through the transport route by the College bus and other vehicles. The bus bring the students and staff to the Campus in morning before the commencement of classes and drops them back for returning to their places of residence. In order to ensure proper commuting to and fro from the College, bus service is provided with maximum accessibility for the students.

General Rules for Availing Transport Facility: The College has safe and secured transport facilities for pick-up and drop for the students which covers various routes. The route details with the allotted driver and Transport in Charge are provided to the students for their convenience. However the following general rules are applicable for availing College transport.

- No students are allowed to board the College bus or any other College vehicle without an identity card.
- The bus will pick up and drop the students from the respective stoppages as per the approved route chart by the Management.
- No other persons are allowed in the bus with the students.
- Discipline has to be maintained by the students. Students shall be responsible for any damage caused to the College vehicle or bus by negligence or other act either knowingly or unknowingly.
- Any grievance regarding the services can be communicated to the Transport Manager or to the Principal's office..
- The transport facility is an extended service and cannot be claimed as a right. The service can be withdrawn at any time depending upon the contingencies.
